

Benjamin GONZVA

Cloud / DevOps Engineer at Sia

Cloud / DevOps Engineer with 2+ years managing multi-cloud production infrastructure. Relocating to Israel (making alyah) - seeking a role where I can bring my cloud-native expertise to a fast-moving engineering team, and contribute to Israel's growth.

Experience

- **Cloud / DevOps Engineer at Sia Partners (Consulting Firm)** *February 2024 - Present*
 - Handled the administration of the company's cloud providers infra (AWS, GCP, Azure), with 1000+ users, 15 kube clusters with 50 nodes, network, gitlab, organizations.
 - Deployed, operated and scaled a full observability stack (Thanos, Grafana (Crossplane managed), Loki, OTEL) providing real time metrics, logs and alerting across 70 platforms and 4 products.
 - Optimized kubernetes autoscaling with Karpenter, and deployed a FinOps AI agent achieving a 10% cost reduction
 - Scaled the infrastructure to bear the load of 70 custom made platforms, handling growing compute, databases, traffic demands without downtime.
 - Led the team to create a technical roadmap, in accordance with the strategic goals of the company, aligning the team on company's priorities
 - Cloud expertise : creation of infras with AWS (EKS, ECS, EC2, VPC, RDS..), GCP (GKE, GCE, GCS, Cloud Run, Cloud SQL) for internal purposes.
 - Managed a R&D lab, creating and promoting squads for small projects
- **Tech Lead & Board Board Member - Junior ISEP (Junior-Entreprise)** *March 2022 - July 2023*
 - Administered and managed a small (school) company : establishment of a development roadmap and management of a 20 people Project Manager's team.
 - Built a CRM used daily by 40 people (Angular, NestJS & PostgreSQL) and deployed with Docker.
 - Led a program backed by Saint-Gobain, Alten, PWC and IEE, to teach 20 first-year students the tools of web (NestJS, React...) during 6 months, throughout a project to build a PWA website for an association.

Education

- **ISEP - Paris, Master's Degree in Engineering** *2019 - 2024*
 - Engineer Cycle (2021 - 2024) : Major in "Architect of Information Systems".
 - Software Genius, Databases & BigData, Agile Management, DevOps studies
 - International Integrated Preparatory Cycle (2019 - 2021) : Mathematics, Physics, Signals, Robotics, Java & Python development - Prague study semester
- **UC Berkeley, Graduate International Student - Berkeley** *August 2023 - December 2023*
 - Software Engineering, Revenue Management, Agile Software Management, Economic Models

Skills

- **Languages**
 - French - native
 - English - fluent
 - Hebrew - Ulpan
- **Technical skills**
 - **Clouds** : AWS (EKS, EC2, VPC, RDS, IAM, S3, CloudFront, Lambda, SageMaker, ECR, ECS), GCP (Cloud SQL, GCS, GKE, GCE)
 - **Orchestration** : Kubernetes, Docker, Helm, Helmfile, Crossplane
 - **Observability** : Thanos, OTEL, Loki, Grafana
 - **DevOps** : Terraform, Terragrunt, Linux, Gitlab CI, Bash
 - **Practices** : IaC, FinOps, Architecture Design
- **Certifications**
 - SCRUM Master PSM I Certified
 - Scaleway Pre-Sales Partner ([Certificate](#))

Additional Projects

- **Co-writer of a family memoirs book (2017-2020)**
 - Recording and retranscription of interviews of my grand-mother
 - Search and collect of archives pictures.
 - Creation of genealogical trees
 - Formatting and printing
- **Volunteering in Israel**
 - Spent one month with SarEl
 - Spent two weeks helping in a farm
